EXPERIENCE

Web Development Intern

Oasis Infobyte

📅 Mar 2023 - Apr 2023 📍 Online

- Developed proficiency in HTML and CSS through hands-on projects assigned during a web development internship. Created a personal portfolio website showcasing my skills, projects, and experiences using HTML and CSS.
- Designed and implemented a temperature converter application using HTML, CSS, and JavaScript to convert between Celsius and Fahrenheit.
- Developed a landing page for a shopping website utilizing HTML and CSS to showcase products and promotions in an attractive format.

Web Development Intern

LearnSmasher Edu Tech

📅 Dec 2023 - Jan 2024 📍 Online

- During my web development internship, I honed my skills in HTML CSS and JavaScript by completing various projects. I gained practical experience in applying front-end development concepts.
- Completed six projects during this internship, including a recipe book, expense tracker, dashboard, and more.

ACHIEVEMENTS

- Attained a Three-Star Coder rating in Python on HackerRank.
- Contributed to Hacktoberfest 2023, engaging in open-source contributions. Participating in GirlsScript Summer of Code 2023, contributing to open-source projects.
- Completed the Complete Web Development and GitHub course through IBM via Coursera, acquiring comprehensive web development skills.
- Achieved a Gold Medal in the Math Olympiad during Class 8, securing the 19th state-level rank.
- Internshala Student Partner, promoting educational opportunities and internships.

TECHNICAL SKILLS

- Python, PHP, JavaScript, Node.js, Unix
- HTML, CSS, Bootstrap, JQuery

HOBBIES

- Enjoy expressing creativity through sketching
- Passionate about music and enjoy singing
- Exploring Places.

EDUCATION

B.Tech, Information Technology

Bengal College of Engineering & Technology

📅 Nov 2021 - Currently

Higher Secondary (XII) - 73.00%

Bihar School Examination Board

📅 Year of completion: 2020

Secondary (X) - 66.60%

Central Board of Secondary Education

📅 Year of completion: 2018

PROJECTS

Simon Game

- Developed a Simon Game using HTML, CSS, and jQuery. Implemented game logic and interactive features, allowing users to test their memory by replicating color sequences.

Personal Portfolio

- A personal portfolio website was created using HTML, CSS, and JavaScript to showcase projects, skills, and professional experience.

Recipe Book

- Created an interactive Recipe Book web application using HTML, CSS, and JavaScript. Provided users with a platform to explore, save, and share their favorite recipes.

Drawing Tool

- Developed a user-friendly drawing tool as part of a web development project. Utilized HTML, CSS, and JavaScript to create an interactive canvas where users can unleash their creativity with various drawing tools and colors.

Expense Tracker

- Built an Expense Tracker web application (HTML, CSS, JavaScript) to empower users with income and expense tracking and spending insights.

Banana Times Game

- Created an interactive game using Scratch where a ground-based monkey aims to catch falling bananas from a tree. Demonstrated creativity and understanding of game mechanics through visual programming.
