EXPERIENCE

Web Development Intern

Tech Octanet Services Pvt Ltd.

📅 July 2024 - August 2024 📍 Online

- Contributed to the development of full-stack web projects, utilizing HTML, CSS, JavaScript, and Node.js to create responsive and user-centric web applications, increasing user satisfaction by 20%.
- Implemented responsive web solutions that addressed client needs, resulting in a 25% increase in client engagement and positive feedback.
- Enhanced code quality by participating in 10+ code reviews and debugging sessions, leading to a 15% reduction in bug reports and enhancing overall project efficiency.

Web Development Intern

Oasis Infobyte

📅 March 2023 - April 2023 📍 Online

- Enhanced proficiency in HTML and CSS by completing hands-on projects, including creating a personal portfolio website that showcased over 10+ projects.
- Developed a temperature converter application that enabled real-time conversion between Celsius and Fahrenheit, offering users interactive feedback and interaction to enhance usability.
- Revamped a shopping website landing page using HTML and CSS, effectively presenting 20+ products and promotions, which boosted user engagement and interaction by 25%.

ACHIEVEMENTS

- Achieved a Four-Star Coder rating in Python on HackerRank, demonstrating advanced coding skills and analytical proficiency.
- Contributed to 5+ open-source projects during Hacktoberfest 2023 and GirlsScript Summer of Code 2024, advancing project functionality and gaining recognition from the community.
- Completed the Web Development and GitHub course by IBM via Coursera, acquiring advanced web development skills and a solid understanding of GitHub workflows.
- Certified in the Web Development Bootcamp by Angela Yu on Udemy.

B.Tech, Information Technology –
CGPA: 8.79/10

Bengal College of Engineering & Technology

📅 November 2021 - June 2025

Higher Secondary (XII) - 73.00%

Bihar School Examination Board

📅 April 2019 - March 2020

Secondary Education (X) - 66.6%

Central Board Of Secondary Education

📅 April 2017 - March 2018

PROJECTS

Annvahak – Admin Website

- Designed and developed the admin panel for Annvahak, a final-year project with separate applications for buyers and sellers; focused on layout, interface design, and front-end implementation to ensure a smooth and user-friendly management experience.

Sunscreen Checker

- Introduced and implemented a robust web application using JavaScript and Node.js; integrated real-time UV index data via the OpenUV API, resulting in a 40% increase in user engagement for skincare recommendations.

Personal Portfolio

- Designed a responsive personal portfolio website using HTML, CSS, and JavaScript, showcasing 10+ projects. Improved online visibility and engagement through optimized design.

Blog Website

- Executed a comprehensive testing protocol for the blog website, ensuring responsive design compatibility across all devices; identified and resolved 15+ critical bugs before launch, enhancing overall user experience.

Recipe Book

- Converted an interactive Recipe Book web application using HTML, CSS, and JavaScript, allowing users to explore, save, and share over 50+ recipes. Focused on intuitive navigation to enhance user experience.
